Global Natural Stone Market is valued at approximately USD 33,375.3 million in 2020 and is anticipated to grow with a healthy growth rate of more than 4.00% over the forecast period 2021-2027. Natural Stones such as marble and granite are used for flooring in patios, porches, backyards, and pavements enhance the visual appeal of residential buildings, thereby fueling their adoption. Rise in popularity of outdoor entertaining areas among wall cladding end-users, increasing investments in the construction sector has led to the adoption of Natural Stones across the forecast period. For Instance: According to IBEF, FDIs in the construction development sector (townships, housing, built-up infrastructure and construction development projects) and construction (infrastructure) activities stood at US\$ 26.14 billion and US\$ 25.38 billion, respectively, between April 2000 and June 2021. Also, with the ongoing technological enhancements, the adoption & demand for Natural Stones is likely to increase the market growth during the forecast period. However, fluctuation in foreign currencies impedes the growth of the market over the forecast period of 2021-2027.
