## Abstracts

Global Night Vision System (NVS) and Driver Monitoring System (DMS) Market is valued approximately USD XXX Billion in 2019 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2020-2027. The Night Vision System (NVS) and Driver Monitoring System (DMS) are the most essential active safety system of vehicle which is designed to enhance driver perceptions and safety ratios along with helps in preventing road accidents. The global pandemic of COVID-19 inversely affected the global growth of NVS & DMS due to the announcement of lockdown in various economies. Government took various initiatives regarding prevention of coronavirus which includes lockdown that impacts in shut down of manufacturing of essential automobile parts and slowdown in supply of it. Whereas, the market growth is expected to drive over the forthcoming period due to the rise in fatal incidents across the globe which encourages the demand for night vision systems and driver monitoring systems. For instance: as per World Health Organization (WHO) nearly 1.25 million people die in road crashes each year, on average 3,287 deaths a day, that cost loss of around USD 518 billion globally. In addition, rise in demand for premium class vehicles is the factor propelling the market growth over the forecast years. However, high price of NVS and DMS is the factor hampering the growth of market.

The regional analysis of global Night Vision System (NVS) and Driver Monitoring System (DMS) Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the

leading/significant region across the world in terms of market share owing to the rise in demand premium class vehicles. Whereas, Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2020-2027. Factors such as rise in cases of fatal incidents and growing production of automobiles would create lucrative growth prospects for the Night Vision System (NVS) and Driver Monitoring System (DMS) Market across Asia-Pacific region.
