Abstracts

Global NTRK Fusion Gene Positive Advanced Solid Tumor market is anticipated to grow with a CAGR of nearly 5.4%, during the forecast period 2020-2027. NTRK fusion gene positive cancers are those in which the NTRK gene has been mutated. While NTRK fusions are uncommon, accounting for less than 1% of solid tumors, the exact prevalence is unknown. NTRK fusion genes can be detected using DNA Next Generation Sequencing (NSG) technology. It has a high level of sensitivity and accuracy. It is capable of detecting gene partners with significant therapeutic effects. Foundation One does not detect NTRK fusions using commercially available techniques such as DNA NGS panels. Due to technological advances, the global NTRK fusion gene positive advanced solid tumors market is expected to expand rapidly over the forecast period. The demand for NTRK fusion gene positive advanced solid tumors would benefit from early screening and identification of NTRK mutation genes in people. Due to the advancement of new therapeutics in the near future for treating various forms of cancers, the global NTRK fusion gene positive advanced solid tumours market has a high potential. NTRK inhibitors, such as Entrectinib, marketed by Genentech Inc., were recently licensed by the FDA in 2019, for the treatment of NTRK fusion gene positive advanced solid tumors. Likewise,, SeraCare Life Sciences, a foremost in vitro diagnostics producer and clinical laboratory partner, launched an extended neurotrophic tropomyosin receptor kinase (NTRK) RNA fusion reference material panel in 2018, established in collaboration with Bayer. However, Poor healthcare infrastructure and high costs associated with genetic screening of NTRK fusion genes may hamper growth of NTRK fusion gene positive advanced solid tumors market growth over the forecast

period of 2020-2027.

The regional analysis of the global NTRK Fusion Gene Positive Advanced Solid Tumors Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World.
