Abstracts

Global On-demand Logistics Market is valued approximately USD 12.40 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 20.8% over the forecast period 2022-2029. On-demand Logistics refers to modern logistics strategy utilized by e-commerce platforms to deliver products to customers as per their location preference. The on-demand logistics industry facilitates customers to not choose desired location for delivery of products but also offers shortest delivery time possible. Growing expansion of logistics & transportation sector and rising penetration of e-commerce platforms as well as strategic initiatives from leading market player are key factors accelerating the market growth.

According to Statista – during 2020, the global logistics industry was estimated at USD 5.73 trillion, and the market is projected to grow to USD 6.88 billion by 2024. Also, rising technological advancements in logistics & transportation sector and growing penetration of online sales channels across different industries would create lucrative growth prospectus for the market over the forecast period. However, high operating cost and lack of infrastructure availability would impede the market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global On-demand Logistics Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North

America dominated is the leading region in terms of market share owing to presence of leading Market players as well as rising e-commerce delivery platforms in the region. Whereas Asia Pacific is expected to grow significantly during the forecast period, owing to factors such as rising penetration of e-commerce platforms as well as increasing number of favorable initiatives from leading market players to promote logistics industry in the region.
