Abstracts

Global Organic Almond Yogurt Market is valued approximately at USD 0.29 Billion in 2020 and is anticipated to grow with a healthy growth rate of more than 4.9% over the forecast period 2021-2027. Organic almond yogurt is a part of vegan-based diet. The global Organic Almond Yogurt market is being driven by rise in the vegan population around the world. For instance, according to the foodrevolution.org, the vegan population in UK has increased by 350%, from 2010 till 2020. Also, according to the sentientmedia.org, in U.S., there has been 300% increase in vegan population between 2004 and 2019. Another driving factor is the increase in product launches by the companies to boost the market growth. For instance: in 2021, DAH! company launched Oat Almond Coconut non-dairy yogurt to expand the market base in India. Furthermore, positive influence of social media, the rising awareness about animal cruelty, and environment friendly production process of Organic Almond Yogurt, will provide new opportunities for the global Organic Almond Yogurt industry. However, high prices of these products due to high costing of raw materials and lack of awareness among customers regarding the benefits of its consumption may impede market growth over the forecast period of 2021-2027.

The key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World are considered for the regional analysis of the global Organic Almond Yogurt Market. Europe is the leading region across the world in terms of market share due to growing vegan population and presence of large companies in the region. Whereas Asia-Pacific is anticipated to exhibit the highest CAGR over the forecast period 2021-2027 due to the shifting consumer inclination for organic food products, high consumption of almonds and rising health conscious consumers in the region.
