## **Abstracts**

Global Organic Hydrosols Market is valued approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. Organic Hydrosols can be defined as water-based products derived from the distillation of fresh flowers, leaves, fruits, and other plant materials among others. Hydrosols are byproduct of the essential oil manufacturing process and contains same properties as essential oils. Hydrolysis contains anti-bacterial, anti-inflammatory, anti-septic and are rich in antioxidants. Hydrosols have applications in skin care, aromatherapy products. While these are also used for medicinal purposes. The rising demand for skin care products and increasing application of hydrosol in veterinary products as well as surging demand for organic personal care products are factors that are accelerating the global market demand. For instance, according to Statista - In 2020, the global skin care market was valued at USD 136.4 billion, and the market is projected to grow to USD 187.68 billion by 2026. Furthermore, as per Statista – In 2019, global market of natural and organic skin care products was estimated at USD 4.75 billion, and this market is estimated to reach to USD 7.2 billion by 2024. Also, growing utilization in end use industries and rising e-commerce industry in emerging markets are anticipated to act as a catalyzing factor for the market demand during the forecast

period. However, lower shelf life of hydrosols impedes the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Organic Hydrosols Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America is the leading region across the world in terms of market share owing to the growing demand for natural products and presence of leading manufacturers in the region. Whereas, Asia Pacific is anticipated to exhibit a significant growth rate over the forecast period 2022-2028. Factors such as growing demand for skincare products and rising pharmaceuticals sector in the region, would create lucrative growth prospects for the Organic Hydrosols Market across the Asia Pacific region.
