## **Abstracts**

Global Organic Rice Flour Market is valued approximately at USD XX Billion in 2020 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2021-2027. Organic Rice Flour has been gaining popularity among consumers as it is produced without any synthetic fertilizers, pesticides, chemicals, or any other harmful materials. The global Organic Rice Flour market is being driven by growing consumption of rice around the world. For instance, according to Statista, there has been increase in consumption of rice from 486622 tons in 2018-19 to 504309 tons in 2020-21. The other driving factor for market growth is the rising adoption of organic food products as they are considered healthy. According to Statista, market value of organic food and beverage market is expected to increase from USD 165.52 billion in 2018 to USD 679.81 billion by 2027. Furthermore, the rising awareness regarding health benefits of organic & natural food products, rising disposable income and growing end-uses industries such as bakery, processed food and others will provide new opportunities for the global Organic Rice Flour industry. However, high prices of the Organic Rice Flour may impede market growth over the forecast period of 2021-2027.

The regional analysis is evaluated on the basis of the key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World for the global Organic Rice Flour Market. Asia Pacific is the leading region across the world in terms of market share and also is anticipated to exhibit the highest CAGR over the forecast period

2021-2027 due to favorable government initiatives to promote organic farming, large consumption of rice, increasing adoption of organic food diet and enhanced standards of living have stimulated product demand in the region.
