Global Padded Dividers Market is valued approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. The Padded Dividers can be defined as compartmentalized boxes used to pack shipped items. These dividers are made with different materials such as Polypropylene, Polyethylene, High Density polyethylene etc. These dividers are utilized to safeguard products from damage during transportation. Padded dividers have application in different industries such as glass. The growing cosmetics and personal care industry and increasing utilization of padded dividers across different industries as well as surging DSLR camera shipments worldwide are factors that are accelerating the global market demand. For instance, according to Statista – as of 2022, revenue in global beauty and personal care products is estimated at USD 564.40 billion, and the market is projected to grow at CAGR of 4.76% between 2022 and 2026 to reach to USD 679.78 billion by end of 2026. Furthermore, leading market players are coming up with innovative products to capitalize the increasing demand for padded dividers. For instance, in January 2019, UK based Kite Packaging launched its new self-locking universal dividers. These dividers would be available in different sizes and intended for protection of bottles, ceramics, cosmetics and electrical goods among others. Also, growing e-commerce industry in emerging economies and rising pharmaceuticals sector are anticipated to act as a catalyzing factor for the market demand during the forecast period.
