Abstracts

Global Painting Tools Market is valued approximately at USD 11.26 Billion in 2020 and is anticipated to grow with a healthy growth rate of more than 5 % over the forecast period 2021-2027. Rapid urbanization and growth in the infrastructural development is anticipated to grow the market. Construction industry is projected to be one of the major contributors to the painting tools market as construction application possesses 70% of the painting tools market share. Also, these painting tools are easy to use and the competitive market pricing for the product is also a driving factor for the market. However, industrial painting is a complex process and requires highly efficient tools which cannot be afforded by everyone, therefore restraining the market growth. Also, lack of skilled labors to use the advanced tools is also restraining the market. Technological development in order to reduce the paint wastage is giving market opportunities to grow in the near future. Product development such as customizable and replaceable components which enhances the functionality to make products friendlier is also giving market the opportunities to flourish in the forecasted period.

The key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World are considered for the regional analysis of global Painting Tools market. Asia Pacific is dominating the global painting tools market owing to the infrastructural developmental projects in commercial and industrial sector in China which is fueling the market in the region. Europe is expected to be the fastest growing region because of

surging demand of product from professional craftsmen in the architectural industry.

Major market player included in this report are
