Abstracts

Global Payment Gateway Market is valued approximately USD 18 billion in 2020 and is anticipated to grow with a healthy growth rate of more than 21.5% over the forecast period 2021-2027. Payment gateway systems are extensively used in cashless transactions as they include effective alert algorithms that detect any dubious offline and online events. The advancements and technological developments in mobile payment knowledge and growing usage of mobile wallets are driving the Payment Gateway market. Increasing smartphone and internet penetration in developing countries, coupled with the adoption of latest Internet of Things (IoT) and Artificial Intelligence (AI) technologies, has also resulted in the rise of payment gateway market. The major end-use industries, particularly e-commerce and BFSI, has registered significant growth in the last few years. The market for fin tech and ed tech industries is also booming. This too will help payment gateway market to rise rapidly. United Nations Conference on Trade and Development states that the global e-commerce sales jumped to \$26.7 trillion in 2019, up 4% from \$25.6 trillion in 2018. In addition to that, COVID-19 pandemic increased online retail sales share of total retail sales from 16% to 19% in 2020. The United States is the biggest e-commerce market, followed by Japan, China, South Korea and UK. The quicker adoption of online payment services like e-commerce will certainly propel payment gateway market. Increasing incidences of cyber-attacks, hacking and various mega level data breaches may act as a restraint for its growth. However, increasing adoption of digital way of doing things by masses acts as an opportunity for Payment Gateway Market in subsequent decade.

Key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the

World are analysed to provide a holistic picture of Payment Gateway Market. Due faster technological and digital adoption as well as higher per capita income, North America has emerged as a significant region across the world in terms of market share. Whereas, Asia-Pacific is expected to exhibit the highest growth rate for the forecast period 2021-2027 owing to the growing usage of internet and smartphones. Rising disposable income will also boost growth in this region.
