Abstracts

Global PET Preforms Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. Preform refers to packaging container which is made from polyethylene terephthalate (PET) material by injection molding process. Preforms vary in neck finish, weight, color, and shape. Growing beverages industry and rising adoption of recycled-PET materials Packaging are key drivers for the growth of PET Preforms market. For instance, according to global database management company Statista- In 2020, the global market for non-alcoholic drinks was estimated at USD 1.03 trillion and as per projections by 2025 the market would reach to USD 1.44 trillion. Furthermore, in December 2021 Austria based Packaging and container company ALPLA Group in cooperation with joint venture partner Glatfelter Corporation, has collaborated with Sweden based Blue Ocean Closures to develop innovative natural fiber-based closures and other molded packaging products. Also, with the increasing consumption of carbonated soft drinks and rising online food services industry in emerging economies, the adoption & demand for PET Preforms is likely to increase the market growth during the forecast period. However, volatile cost of raw materials and disruption in supply chain due to pandemic restrictions impedes the growth of the market over the forecast period of 2022-2028.

The key regions considered for the Global PET Preforms Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region across the world in terms of market share owing to increasing consumption of carbonated soft drinks and presence of leading market players in the region. Whereas, Asia-Pacific is also anticipated to exhibit highest growth rate over the forecast period 2022-2028. Factors such as growing pharmaceuticals industry and rising beverages industry in the region would create lucrative growth prospects for the PET Preforms market across Asia-Pacific region.
