Abstracts

Global Plant Extracts Market is valued approximately USD 44.43 billion in 2020 and is anticipated to grow with a healthy growth rate of more than 6.0 % over the forecast period 2021-2027. Herbal extracts are plant extracts, which have medicinal properties and are a rich source of several active compounds, such as alkaloids, steroids, tannins, glycosides, volatile oils, phenols, and flavonoids. These active compounds are found in various parts of the plants, including leaves, flowers, bark, seeds, fruits, and roots. Herbal extracts are extracted with the help of different solvents. Increased demand for plant extracts in dietary food supplements and group development is projected to drive the global plant extract market. Increasing incidences of rashes and inflammation caused by the consumption of products containing synthetic chemicals followed by growing awareness for the therapeutic properties of herbs are directly influencing the growth of herbal extracts market across the globe. However, Inadequate supply of raw materials and price fluctuation control's the market growth. Lack of awareness about the advantages offered by plant extracts in developing countries. . Also Rise in awareness regarding the side-effects of synthetic flavors, Growth in R& D activities,Increase in popularity of convenience foods in boosting the demand for plant extracts. Health benefits offered by phytomedicines and herbal extracts.is likely to increase the market growth during the forecast period.

The regional analysis of global Plant extract marketmarket is considered for the key

regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region across the world in terms of market share owing to the growing geriatric population and promptness & affordability of Plant extract products. Whereas, Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2021-2027.
