

Global Prefilled Formalin Vials Market Size study, by Product (

Abstracts

Global Prefilled Formalin Vials Market is valued at approximately USD 388.3 million in 2021 and is anticipated to grow with a healthy growth rate of more than 4.00 % over the forecast period 2022-2028. Formaldehyde also known as methanol is a naturally occurring organic compound with the formula CH_2O (H-CHO). Prefilled Formalin Vials are in high demand due to its widespread application in the manufacturing of methanol-based resins. Urea-formaldehyde, urea-melamine-formaldehyde, and melamine-formaldehyde resins are used in a variety of industrial applications. The high incidence of cancer cases and growing number of pharmaceutical industries and advancing veterinary industry has led to the adoption of Prefilled Formalin Vials across the forecast period. For Instance: as per the WHO, Cancer is a leading cause of death worldwide, accounting for nearly 10 million deaths in 2020, or nearly one in six deaths. The most common cancers are breast, lung, colon and rectum and prostate cancers. Also, with the increasing awareness and disease prevalence and government support towards the growth of the regional biotechnology and healthcare industry, the adoption & demand for Prefilled Formalin Vials is likely to increase the market growth during the forecast period. However, high risk of occupational exposure to formalin and high risk of developing cancer on exposure to formalin impedes the growth of the market over the forecast period of 2022-2028.

The key regions considered for the Global Prefilled Formalin Vials Market study include Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading region across the world in terms of market share owing to the constant flux of new product lines, rising clinical research by CROs, and rising cancer awareness programs. Whereas, Asia-Pacific is also anticipated to exhibit the highest growth rate over the forecast period 2022-2028. Factors such as number of facilities and availability of experienced practitioners would create lucrative growth prospects for the Prefilled Formalin Vials Market across Asia-Pacific region.
