Abstracts

Global QR Code Labels Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. A QR code refers to a type of matrix barcode (or two-dimensional barcode) which is a machine-readable optical label that can contain information about the item to which it is attached. Counterfeiting of trademark has been witnessed in many industries including food & beverage, automotive, pharmaceutical, etc. Counterfeiting actions have led manufacturers to embed QR code labels to their products. Growing beverages industry and rising multi-level usability of QR codes are key drivers for the growth of QR Code Labels market. For instance, according to global database management company Statista- as of 2020, the global market for non-alcoholic drinks was valued at USD 1.03 trillion and by the year 2021 the revenue of the global non-alcoholic drinks market would increase till the year 2025 and the revenue would reach to USD 1.44 trillion at the end of 2025. Also, in April 2021 Mactac, a LINTEC company, has acquired Duramark Products Inc. The acquisition consists of the company's

Minneapolis, Minn., and Moore, S.C., facilities, including its new coaters and advanced automation technologies. Furthermore, with the increasing demand from end use industries and growing Food & Beverages Sector in emerging economies, the adoption & demand for QR Code Labels is likely to increase the market growth during the forecast period. However, negative impact of pandemic restrictions on different industries and availability of other alternative e.g., barcode impedes the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global QR Code Labels Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region across the world in terms of market share owing to increasing demand for the end-use applications and presence of leading market players in the region.
