Abstracts

Global Ready-to-Drink (RTD) Protein Beverages Market is valued at approximately USD 1445.3 million in 2021 and is anticipated to grow with a healthy growth rate of more than 7.72% over the forecast period 2022-2029. People are becoming more and more interested in ready-to-drink beverages as they search for quick, portable solutions. While most people associate the word "ready-to-drink" with bottled water, the category has expanded to cover a wide range of products, such as energy drinks, fruit juices, and teas. The market growth is driven by various key factors such as an increase in demand for sports nutrition due to the growing active lifestyle of individuals and strong demand from Health-Conscious Consumers.

Revenue in the Energy & Sports Drinks market is expected to reach US\$166.30 million in 2022, according to Statista. The market is anticipated to expand by 7.97% yearly (CAGR 2022-2026). Furthermore, the demand for sports nutrition products, such as protein drinks, was fueled by the development of health consciousness and the demand for proper nutrient quality in diet. In 2019, there were over 41.37 thousand health and fitness clubs in the United States, according to the International Health Racquet and Sports Club Association. In addition, from 36.54 thousand in 2016 to 41.47 thousand in 2019, more people joined fitness clubs nationwide. The research shows a rise in consumer awareness of the importance of physical fitness, which has been driving up

demand for protein-based drinks internationally. However, Side effects associated with beverage consumption stifle market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Ready-to-Drink (RTD) Protein Beverages Market study includes Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America is leading the overall market revenue owing to the growing popularity of plant-based proteins diet and rising vegan and flexitarian trends. However, Asia Pacific is expected to be the fastest-growing region due to changing preferences for nutritional goods and rising demand for international brands.

Major market players included in this report are:

Kellogg Company

The Coca Cola Company

Halen Brands Inc.

Glanbia PLC

Labrada Nutrition

PepsiCo Inc.

Abbott Laboratories

Pure Protein

Koia

Post Holdings, Inc.

Recent Developments in the Market:

A new range of adaptogenic beverages called Koia Thrive was introduced in August 2020 by the plant-based beverage Koia. The "allergen-free" product, according to Koia, has all nine necessary amino acids for a full plant-based protein, together with useful adaptogenic herbs and oat milk.

The plant-based beverage company Koia announced in February 2021 that its products may now be offered nationwide in 7-Eleven convenience stores in the United States. Drinks account for more than 60% of customer visits to 7-Eleven, thus the company's product line must meet their demands for leading healthy lives.
