Global Refrigerated ISO Containers Market is valued approximately USD xx billion in 2020 and is anticipated to grow with a healthy growth rate of more than xx% over the forecast period 2021-2027. Refrigerated ISO containers are also known as reefer. They are internationally recognized intermodal container used in freight transport for perishable goods which require refrigeration in the transportation. The global Refrigerated ISO Containers market is driven by increasing seaborne trade across the globe. For instance, according to the United Nations Conference on Trade and Development, the goods loaded worldwide through sea has been increasing significantly from 10.3 billion tons in 2016 to 11.1 billion tons in 2019.
