## Abstracts

Global Rice Seed Market is valued at approximately USD 6.75 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 7.0% over the forecast period 2022-2028. Rice seeds are grown with direct seeding, rice seed is sown and sprouted directly into the field. Increasing production of rice, worldwide and rising growth in the farming industry are factors contributing to the market growth. For instance: according to Statista, the worldwide rice acreage went from 161.77 million hectares in the year 2019 to 164.19 million hectares, in the year 2020. However, ongoing COVID-19 pandemic and stiff competition between the private players impede the growth of the market over the forecast period of 2022-2028. Also, rapid advancement in technology and strategic initiatives by the private players are likely to increase the growth of the market in the forecasting period.

The regional analysis of the global Rice Seed market includes Asia Pacific, North America, Europe, Latin America and Rest of the World for analysis and estimation. Asia Pacific is the leading region across the world in terms of market share owing to the rising worldwide population. Whereas, North America is also anticipated to exhibit the highest growth rate over the forecast period 2022-2028. Rising food production would create lucrative growth prospects for the Rice Seed market across North America region.
