## **Abstracts**

Global Roll Trailer Market is valued approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. Roll Trailer is defined as trailer platform that is required to be attached by a powered vehicle. It is used for transportation heavy materials and goods. These trailers come in different loading capacities ranging from 30 tons to 250 tons. Roll trailer has application across different industries such as Maritime and shipping, construction, logistics and transportation, manufacturing etc. Rising logistics and transportation Sector and increasing demand for customized trailers as well as recent product launches from leading market players are key drivers for growth of Roll Trailer Market. For instance, according to Statista - In 2020, the global logistics industry was estimated at USD 6.02 trillion, and the global logistics industry is projected to grow to USD 7.14 trillion by 2024. Moreover, in April 2022, US based PJ Trailers announced new updates to its flatdeck trailer, named the Low-Pro Flatdeck with Duals (LD) . The company added gooseneck design, coupler, frame design, suspension, and other updates to this trailer. The new Demco EZ Latch Gooseneck Coupler and TwistGuard frame design, make the trailer ideal for dragging heavy loads. Also, growing shipping industry in post covid era and rising investment activities towards infrastructure development are anticipated to act as a catalyzing factor for the market demand during the forecast period. However, high cost associated with stringent regulations and

availability of substitutes impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Roll Trailer Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America is the leading region across the world in terms of market share owing to presence of leading market players and growing transportation sector in the region. Whereas, Asia Pacific is anticipated to exhibit a significant growth rate over the forecast period 2022-2028. Factors such as growing construction sector and increasing penetration global market players in the region, would create lucrative growth prospects for the Roll Trailer Market across the Asia Pacific region.
