## **Abstracts**

Global SaaS-based Expense Management Market valued approximately USD XX million in 2018 is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2019-2026. The SaaS-based Expense Management Market is continuously growing in the global scenario at significant pace. SaaS-based expense management includes the deployment of expense management systems as a web-based subscription service. This system helps in controlling and monitoring expense reports, thereby streamlining the business process and preventing fraud and human error. It also increases visibility across the entire reimbursement claim process, reducing travel costs and improving the efficiency of enterprises. The SaaS-based system is operated by a third-party organization as opposed to the installation and maintenance of an on-site business system. SaaS-based expense management has succeeded in changing the procurement of expense management systems from a capital expenditure to a pay-per-use subscription arrangement. Rising need to reduce expenses and operational costs in organization and growth in adoption of end-to-end expense management solutions are the substantial driving factors of the market during the forecast period. Moreover, broader access to expense portals through mobile apps and increase in need for visibility into expenditure are the factors that likely to create numerous opportunity in the near future. However, availability of in-house expense management systems and data security issues are the factors that limiting the growth of the market during the forecast period. The regional analysis of Global SaaS-based Expense Management Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World.
