Abstracts

Global School Bags Market is valued approximately at USD 17.74 billion in 2019 and is anticipated to grow with a healthy growth rate of more than 6% over the forecast period 2020-2027.. Rising demand for bags with trendy designs, rising school admissions and demand for material which is capable of carrying excess weight and governments initiatives to encourage education for all children are going to influence the market positively.. For instance: in fiscal budget 2020-21 of India, government allocated Rs. 99,300 crore to education sector which is more than Rs. 94,800 crore, which was allocated in the year 2019-2020. However, government restrictions regarding hunting of animals for procurement of leather impedes the growth of the market over the forecast period of 2020-2027. Also, with the rise in use of gadgets like smartphones and tablets in education reduce the weight of bags due to which rise in demand of lightweight bags is likely to increase the market growth during the forecast period.

The regional analysis of global School Bags market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. Asia Pacific is the leading/significant region across the world in terms of market share owing to rising number of school going children in the region . Whereas, Europe is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2020-2027. Factors such as high disposable income along with higher enrollment ratio of children in schools would create lucrative growth prospects for the School Bags market across Asia-Pacific region.
