## **Abstracts**

Global SCK Paper Market is valued at approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. SCK Paper is majorly used in industries such as food and beverage, packaging industries, and art and craft. These papers are made by pressing and drying method, followed by supercalendering to provide a smooth and glossy surface. The SCK Paper Market is estimated to grow with the expanding food and beverages industries. in the forecast period at an alarming rate. For instance: According to the Economic Research Service of USDA (U.S Department of Agriculture) in 2020, the American's spending on food and beverages accounts for an average of around 12 % of the household budget. Additionally, food, agriculture, and other related industries accounted for approximately USD 1.055 trillion in the U.S GDP in 2020. On the flip side, the output of America's farms is contributing about USD 134.7 billion sums which is around 0.6 % of the GDP. The increasing adoption and demand for packaging industries enhance the market growth in the coming years. Additionally, stringent government regulations toward the environment and expansion of construction and infrastructure industry increase the demand and adoption of the SCK Paper in the projected years. However, threat of substitutes impedes the market growth over the forecast period of 2022-2028.

The key regions considered for the global SCK Paper market study include Asia Pacific,

North America, Europe, Latin America, and the Rest of the World. Europe is considered the dominating region across the globe owing to the increasing usage of SCK paper to pack food items and expansion of market players. The rising disposable income coupled with inclination toward junk food pushes the market demand across the region in the forecast period. Whereas, North America is deemed as the fastest-growing region in the world owing to the factors such as rising penetration of e-commerce platforms. increasing demand for kraft material, rising stringent government norms towards environment-friendly products. Additionally, rising R&D activities are another major factor bolstering the market growth across the region over the forecast period of 2022-2028.
