## Abstracts

Global Self Storage Market is valued at approximately USD 68.24 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 5.45% over the forecast period 2022-2029. Self-Storage is an industry that provides storage space on rent usually for the short-term, they are more likely to be lockers, rooms, containers, or outdoor space. The Self Storage market is expanding because of factors such as increased urbanization coupled with smaller living spaces and changing business practices behavior. This market is dominated by U-Haul International Inc., Life Storage Inc., CubeSmart LP, National Storage Affiliates, Safestore Holdings PLC.

There has been significant growth of urbanization in past few years, due to the shift of citizens from rural to urban cities in a surge of jobs opportunity and a better standard of living. As well as the increase in population has been an influencing factor for the increase in urbanization. In 2022, the rate of urbanization was 57% globally and North America has been recorded to have a high rate of urbanization. For instance, In India, more than one-third of the total population lives in Urban cities, and recent trends show that urbanization has increased by nearly 4% in the last few decades. As per all these statistics, the population will be expected to be 10 million in 2030 which will propel the growth of self-storage market. Furthermore, the beginning of downsizing of baby boomers and the demand for additional storage as families increase with more material possessions has increased the opportunity for this significant market for the projected year. However, government regulations on storage are expected to stifle market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Self Storage Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America

dominated the market in terms of revenue, owing to the dominance of branded products and the region's increasing population. Asia Pacific is expected to grow with the highest CAGR during the forecast period, owing to factors such as rising populations, an increase in the number of collaborations for development, geographic expansion of key players. For instance, Asian cities such as Mumbai, Singapore, Beijing, and Hong Kong are densely populated cities where the average size of the house is 80m<sup>2</sup> in Hong Kong, Singapore and Japan for which they are looking forward to self-storage to store their belongings.
