Abstracts

Global Single Portion Cosmetic Packaging Market is valued approximately USD XXX billion in 2020 and is anticipated to grow with a healthy growth rate of more than XXX% over the forecast period 2021-2027. Single portion cosmetic packaging refers to a single jar or a tube filled with a single cosmetic product. This comes in variety of forms ranging from plastic, glass, metal and many other, depending upon its need and use. Ultimate increase in the shelf-life of the product due to single portion packaging and increasing demand of cosmetics product are factors contributing to the market growth. For instance: according to Statista, L'Oréal Paris generated USD 30.8 billion of revenue in the year 2019 and the figure went up to USD 32.81 billion in the year 2020 through the sale of its cosmetics product. With an increase in the demand for cosmetics there will be an ultimate rise in the single portion cosmetics packaging market, in the long run. However, consumption of the product in large quantities impedes the growth of the market over the forecast period of 2021-2027. Also, shift towards organic cosmetic products and increase in innovations in the cosmetics sector is likely to increase the growth of the market in the forecasting period.

The regional analysis of global Single Portion Cosmetic Packaging market when considering for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World has led to the analysis that Asia Pacific is a significant region across the world in terms of market share owing to increase in awareness towards personal care. Whereas, Europe is anticipated to exhibit the highest growth rate over the forecast period 2021-2027. Factors such as changing lifestyle habits would

create lucrative growth prospects for the Single Portion Cosmetic Packaging market across European region.
