Abstracts

Global Skateboard Shoes Market is valued approximately USD XX million in 2018 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2019-2026. The skateboard shoes are type of shoes that are used by an individual for skateboards. Skateboard shoes are different as compared to normal shoes as they are not meant for walking, hiking, or running. The skate shoes are having flat, grippy and wide soles but they aren't built for continuous thumping, which makes them less suitable option for walking. Skateboard shoes are divided in two categories that is Cupsole Shoes which are having thick soles that are glued and sewn into shoes and other is Vulcanized Sole Shoes in which soles are thinner made up of individual components that are glued together. Factors like durability, purpose, protection provided by skateboard shoes are the major drivers of global skateboard shoes market. The market is further expected to grow as companies are coming up with new shoes that are light in weight, can be used for long period of time and handle more stress. Further, emergence of new players in the market is also expected to drive the demand in future. However, rapid changes in skateboard shoes market, high cost associated with the product are expected to hamper the growth in forecast period.

The regional analysis of global skateboard shoes market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region across the world in terms of market share owing to rising demand of skateboard shoes among its end-users in the region. Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2019-2026 due to presence of large number of producers and
