## Abstracts

Global Skim Organic Milk Powder Market is valued approximately USD 28.3 billion in 2018 and is anticipated to grow with a healthy growth rate of more than 4.35% over the forecast period 2019-2026. Skimmed milk powder is the resultant of removing water and milk fat from pasteurized milk. Skimmed milk is also known as nonfat dry milk and it is source of high nutritional value like high animal protein, carbohydrate content. Skimmed milk powder helps in muscle growth, keeping blood pressure in check, improved nerve system and systematic immune system. Skimmed milk is also demanded by the women for feeding their infants who are intolerant to breast feeding and women who faces time crunch due to their busy work life. The demand for skimmed milk powder is driven by the increase in the demand of bakery products and confectionery foods. The demand is also driven by the awareness about the benefits of skimmed milk among the people who are conscious about their increased weight as it contains less fat. The market is expected to grow in near future due to change in consumer food patterns and flavored milk powder manufactured by companies in order to attract more customers. However, addition of preservatives adulteration and strict regulations imposed by the government on infant food will hinder the demand of skimmed milk powder in near future.

The regional analysis of global Skim Organic Milk Powder market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region across the world in terms of market share owing to rising demand of Skim Organic Milk Powders among its end-users in the region. Europe contributes a satisfactory growth in the global Skim Organic Milk Powder market during the forecast period due to increase in the consumption of

infant formulas. Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2019-2026 due to change in lifestyle and increase in working population.
