Abstracts

Global Skincare Device Market is valued at approximately USD XXX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XXX % over the forecast period 2022-2028. Skincare Devices is a big, overarching category that includes any electrically powered gadgets meant to benefit your skin. This category encompasses hair removal tools, mechanical exfoliators, facial massagers, rotating makeup brushes, and more. Rising skin issues, rising awareness among consumers, rising demand for faster and efficient methods, and rising research & development and innovations have driven the adoption of Skincare Device Market across the projected period. For Instance: “At-home” skincare devices like GlopPro have witnessed triple-digit sales growth during pandemic due to its innovative microneedle which is used to puncture the skin while making tiny holes so as to stimulate collagen production and increase absorption. Also, fast evolving skincare arena and key players introducing consumer compatible products are most likely to boost the overall growth of the Skincare Device Market. However, the Side effects of Skincare Devices and risks associated with “at-home” Skincare Devices can obstruct the Market's expansion over the projection period of 2022-2028.

The key regions considered for the Global Skincare Device Market study include Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is

the leading region across the world. Rising demand for skincare devices is driving the Market growth in North America. Asia Pacific is also anticipated to exhibit the highest growth rate over the forecast period 2022-2028. The Market is expected to grow during the projected period, due to rising disposable income and awareness among consumers
