## **Abstracts**

Global Slide Stainer Market is valued at approximately USD 4.04 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 6.2% over the forecast period 2022-2029. Slide Stainer is a substance used in imparting of cells and tissues, it helps in microscopic identification and makes cellular study easy. The Slide Stainer market is expanding because of factors such as rising prevalence of cancer, increasing healthcare expenditure as well as growing geriatric population.
