## **Abstracts**

Global Smart Parcel Delivery Locker Market is valued approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028.

The Smart Parcel Delivery Locker can be defined as a storage solution that has integrated technology built into it, allowing it to automate package delivery, notification, and distribution. This system installed either within a CBU or alongside neighborhood delivery and collection box units or in conjunction with PO Boxes in a retail facility. The growing E-commerce sector worldwide and increasing technological advancements in parcel delivery as well as recent product launches from leading market players are factors that are accelerating the global market demand. For instance, as per Statista - in 2021, retail e-commerce sales were estimated at USD 4.9 trillion worldwide. This figure is projected to grow to USD 7.4 trillion dollars by 2025. Furthermore, leading market players are coming up with innovative products to capitalize the growing adoption of Parcel delivery locker systems. For instance, in June 2021, Pitney Bowes Inc. announced the expansion of its locker's portfolio with the launch of ParcelPoint™ Smart Lockers. These new lockers are modular and scalable, and ideal for organizations with more complex workflows. Also, growing advancements in food and beverage sector and rising emergence of advanced technologies such as Big Data, IoT are anticipated to act as a catalyzing factor for the market demand during the forecast period. However, a

high installation and maintenance cost and rising concern over cybersecurity impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Smart Parcel Delivery Locker Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America is the leading region across the world in terms of market share owing to the growing number of technological advancements and presence of leading market players. Whereas, Asia Pacific is anticipated to exhibit a significant growth rate over the forecast period 2022-2028. Factors such as the thriving growth of logistics and transportation sector and growing emergence of IoT and 5G technologies, would create lucrative growth prospects for the global Smart Parcel Delivery Locker Market across the Asia Pacific region.

Major market players included in this report are:

TZ Limited

Quadient

KEBA AG
