Abstracts

Global Smart Vase Market is valued approximately USD XX billion in 2020 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2021-2027. Smart vase is a decorative planter integrated with several features such as LED light, speaker, Bluetooth, etc. Technological advancements and increasing demand for smart products and IoT devices are factors driving the market growth. According to alarms.org 47% of millennials already owning some smart devices in their house while 70% who already own one product are planning to buy another one. Furthermore, smart vase has several features such as it gives a quick alert to the user when plants require water, sunlight and minerals and also this vase can be connected with a mobile application which helps the user adjust the requirements with their smart phone. However, the cost of smart vases is high compared to conventional vases which impedes the growth of the market over the forecast period of 2021-2027. Also, inclination of people toward plants decoration at home is likely to increase the market growth during the forecast period.

The global region wise analysis of Smart Vase market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is a significant region across the world in terms of market share owing to technological advancement in this region and growing popularity of smart homes.

Whereas, Europe is also anticipated to exhibit the highest growth rate over the forecast period 2021-2027. Factor such as increasing per capita income of European people has raised the spending on house decorative items as well as smart products thus contributing to the growth of the region's market.
