Abstracts

Global Social Media Management Market is valued approximately USD 11.7 billion in 2020 and is anticipated to grow with a healthy growth rate of more than 23.6% over the forecast period 2021-2027. Software and services for social media management generate, schedule, analyse, and engage digital material on social media platforms including Facebook, Instagram, Snapchat, Twitter, and others. Increased focus on the market and competitive intelligence, increased need for search ROI for social media strategy, improved customer experience with social media management, and increased user engagement of social media using smartphones are some of the major factors driving the growth of the Social Media Management Market. Profit margins are still being impacted by global competition, and businesses are always looking for technology solutions to increase efficiency and cut costs while preserving a competitive

advantage. Whereas, Data privacy issues have received widespread attention in recent years, and laws and regulations addressing data protection and privacy, such as the General Data Protection Regulation (GDPR), Payment Card Industry Data Security Standard (PCI DSS), Health Insurance Portability and Accountability Act (HIPAA), and Gramm–Leach–Bliley Act, have had a significant impact on the social media space (GLBA). Businesses are attempting to make the most of social media management platforms by expanding their customer relationships through social media management solutions to obtain real-time information and generate corporate outcomes in terms of ROI. For instance, in June 2021, Adobe Commerce has added an AI-powered live search feature. Adobe Commerce businesses may deliver relevant and tailored search results to their customers based on their needs.

The main regions of Asia Pacific, North America, Europe, Latin America, and the Rest of the World are included in the geographical analysis of the worldwide Social Media Management market. In the social media management industry, North America is projected to have the highest market share. The area is a mature and well-established market with a strong risk appetite and a desire for technical advancements, providing a wealth of chances for social media management vendors and service providers. The region is known for its large number of social media users and the prevalence of social media management solutions. The use of social media networks as a major marketing and customer interaction tool for industrial verticals is expected to boost market revenue creation in the area.
