Abstracts

Global Sustainable Footwear Market is valued approximately USD 8.28 billion in 2020 and is anticipated to grow with a healthy growth rate of more than 6.1 % over the forecast period 2021-2027. Sustainable Footwear are designed with the aim to produce products using recyclable, renewable, biodegradable materials. Consumers preference for sustainable and nature friendly products which are durable also, rise in e-commerce sector to contribute to the on the go lifestyle of the consumers and increasing outdoor activities are some of the factors which will increase the adoption of Sustainable Footwear across the forecast period. The sustainable footwear market is driven by the changing life style of consumers as they are more inclined towards sustainable and comfortable products. According to research published by Harvard Business Review, in 2019, the sale of sustainable, delivering sale of around \$114 billion products increased from 14.3% to 16.6% during the period 2013-1028. According to a report of eMarketer, e-commerce as a percentage of global GPD increased from 0.92% to 1.61% accounting for the period 2013-2018. However, high cost of raw materials required and lack of investment to invest in new technologies are affecting the growth of the market over the forecast period of 2021-2027. Also increasing numbers of youngsters around the globe and increasing adoption of sustainable production methods are likely to increase the market growth during the forecast period.

The geographical study of the global Fishing Reels market includes Asia Pacific, North America, Europe, Latin America, and the Rest of the World. Asia Pacific region holds the highest market share across the world because of the increasing disposable income and growing influence of fashion trends. Whereas, Europe is also expected to show

highest growth rate over the forecast period 2021-2027. Factors such as growing e-commerce industry, increasing health consciousness and increasing need for comfortable footwear would boost the market growth for the Sustainable Footwear market across European region.
