Abstracts

Global Synthetic Small Molecule API Market is valued at approximately USD 131.55 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 5.73% over the forecast period 2022-2029. Synthetic small molecule active pharmaceutical ingredient (API) is generally formed of 20–100 atoms that are purified, well-defined, and easily studied ingredients. Synthetic small molecule API is highly used in the treatment of several ailments and illnesses and has various mechanisms of action. The rising prevalence of chronic diseases such as cancer, cardiovascular, etc., growing outsourcing of API production, coupled with the flourishing growth of the pharmaceutical industry are the primary factors that are propelling the market growth across the globe. According to Statista, in 2018, the global pharmaceutical sector is estimated to produce a revenue of USD 1204.8 billion, and the amount grows and reached USD 1423.5 billion in the year 2021. Also, the pharmaceutical industry is expected to constantly grow, which is augmenting the market growth worldwide. Moreover, the growing investment in R&D activities and rapid launch of novel molecules by the key market players are presenting various growth prospects to the market over the forecasting years. However, the introduction of biologics and the lack of skilled professionals are hindering market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Synthetic Small Molecule API Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America dominated the space in terms of revenue, owing to the rising emphasis on the development of less complex molecules and the introduction of novel products.

Whereas, the Asia Pacific is expected to grow significantly during the forecast period, owing to factors such as growing support from the government with favorable initiatives, coupled with the development of the emerging economies.

Major market players included in this report are:

Bristol-Myers Squibb Company
Cipla, Inc.
Boehringer Ingelheim International GmbH
Merck & Co., Inc.
