## **Abstracts**

Global Tabletop Kitchen Products Market is valued approximately at USD 47 billion in 2018 and is anticipated to grow with a healthy growth rate of more than 3.93% over the forecast period 2019-2026. Tabletop kitchen products are those products or instruments designed for smooth functioning of kitchen activities. The major tabletop kitchen products are drinkware, white goods, dinnerware, and many others. The products are mainly used for cooking and storage functions in kitchen. The products are less expensive and are used for some specialty formula. The process of arranging several tabletop kitchen products or serving ware is considered to enhance the value to the dining experience. Consumers are currently on the lookout for products or services that range from utility appliances like microwaves and tea/coffee machines to serving ware that will allow them to customize their meals at the foodservice industry or social gatherings in residential properties. Growing number of households, emerging concept of buffet and self-service in the culinary world, along with the increasing growth of the commercial sector such as hotels, restaurants are the few factor responsible for high CAGR of the market over the forecast period. For instance, in 2018, around \$21.8 billion was spent on booking hotels through travel agencies in the United States and this figure is expected to increase to almost \$26.1 billion by 2021, as per the Statista Research Department. Through the rising hotel bookings worldwide, it is expected to boost the demand of tabletop kitchen products across commercial sector over the forecast period. However, volatility in raw material price is the major factor limiting the growth of global tabletop kitchen products market during the forecast period.

The regional analysis of global Tabletop Kitchen Products Market is considered for the

key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. Europe is the leading/significant region across the world in terms of market share due to their convenience, rapidly growing populations, increased disposable incomes and urbanization across the region. However, Asia-Pacific is anticipated to exhibit highest growth rate / CAGR over the forecast period. Factors such as increasing penetration of high end tabletop kitchen products especially in emerging countries such as India and China, along with increasing number of hotels, bars, and several other options for dine out is fueling the regional market growth in the forecast period of 2019-2026.
