## **Abstracts**

Global Telehandlers Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. Telehandlers are special heavy-duty construction machineries which are built for material handling and movement. Different accessories can be attached with telehandlers for different requirement. Telehandlers are used in various industries such as construction and agriculture among others. Growing Construction industry and rising R&D activities and new product launches are key drivers for the growth of Telehandlers market. For instance, according to Oxford Economics- Global construction output in 2020 was estimated at USD 10.7 trillion and the market is expected to grow by 42% or USD 4.5 trillion between 2020 and 2030 to reach USD 15.2 trillion. Furthermore, in January 2022, JCB has launched a new mid-range 538-70 telehandler for agriculture and construction industry. Also, with the increasing urbanization and rising government spending in infrastructural projects, the adoption & demand for Telehandlers is likely to increase the market growth during the forecast period. However, high manufacturing cost of Telehandlers and global supply chain disruption due to pandemic restrictions impedes the growth of the market over the forecast period of 2022-2028.

The key regions considered for the Global Telehandlers Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region across the world in terms of market share owing to presence of leading market players and growing technological advancements in construction machinery in the region. Whereas, Asia-Pacific is anticipated to exhibit highest growth rate over the forecast period 2022-2028. Factors such as increasing government

spending in infrastructure development and rapid urbanization in the region would create lucrative growth prospects for the Telehandlers market across Asia-Pacific region.
