## Abstracts

Global Terrazzo Flooring Market valued approximately USD XX billion in 2017 is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2018-2025. The Terrazzo Flooring Market is continuously growing in the global scenario at significant pace. Terrazzo is a flooring material consisting of chips of marble or granite set in concrete and polished to give a smooth surface. Terrazzo was originated in Italy, where marble-workers would take the crumbs of their work home, mix them with cement and create faux-stone floors for their terraces. Since then, terrazzo floors have grown into an art form all their own with a wide range of styles and possibilities. Classic terrazzo is a mixture of marble fragments, called the aggregate, and a cementations binding agent, called the matrix. It is resilient and can be used inside and outside and it can be cast in place or laid in manufactured tiles. Growing construction of residential & commercial building and increasing focus on sustainable flooring among customers are the substantial driving factors of the market during the forecast period. Moreover, increasing projects taken by governments in many countries is the major factor that likely to creating lucrative opportunity in the near future. Additionally, terrazzo flooring offers several benefits such as reduced costs, longer lifespan, environmental friendliness and so on. These benefits also aiding the growth of the market across the globe. However, high initial cost and threat from substitutes like wood and marble are the factor that limiting the market growth of Terrazzo Flooring during the forecast period.
