Abstracts

Global Therapeutic Bed Market is valued approximately USD 4.22 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 5.01 % over the forecast period 2022-2028. A therapeutic bed can help facilitate healing by reducing pressure points, regulating temperature, preventing bed sores and allowing better circulation than an ordinary bed can. This can range from a standard hospital bed to specialized mattresses or extra padding purchased through a retail store. It may also include additional positioning aids such as pillows, bolsters or wedges to provide comfort or positioning needs related a medical condition. The increasing prevalence of chronic disorders like cardiovascular disorders, neurological disorders etc and continuous growth in the geriatric population are acting as key drivers for the market . According to the WHO, in 2020, the chronic illness prevalence increased by 57%, which is anticipated to spur market growth in the near future. The COVID-19 outbreak in 2020 increased the demand for therapeutic beds significantly. Also, World population ageing report estimates that percentage of geriatric population across the globe may increase to 16% of world population by 2050 which was around 89.3% in 2020. Moreover, growing geriatric population and lifestyle diseases that need the medical beds for the improved care and comfort is anticipated to boost the market growth over the forecast period. Furthermore, , technological advancements and adoption of medical beds along with growing number of hospitals is expected to enhance the market growth over the forecast period . However, high cost associated with medical beds impedes the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Therapeutic Bed Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. Europe accounted for the largest revenue share as of 2021 due to an increase in number of road accidents and various surgical procedures along with the introduction of technologically advanced products. Asia Pacific region is the most lucrative market due to growing patient pool, improving public & private reimbursement infrastructure, and constant development of healthcare facilities also a lot of supportive government policies and programmes may aid the further growth of the market .
