Abstracts

Global Tiny homes Market is valued approximately XX in 2020 and is anticipated to grow with a healthy growth rate of more than XX over the forecast period 2021-2027. Homes preferred by consumers are now with much less emphasis and with a lower eco footprint on material possession in the construction. Within the layout and creation of tiny homes, clever ways of the usage of space and using modern generation are exclusive. The high cost of housing is motivating more people to live in tiny homes and more relaxed regulations and efforts by local governments are the key driving factors of market which is anticipating the growth of market.

Also, growing popularity of environmentally efficient homes are factors which will anticipate the growth of market in forecasted period. For instance, according to Oregon Cottage Co., the material cost to build a tiny home with reduction of carbon footprint is between USD 45 and USD 50 per sq. ft. or 40%-50% of the total built-up cost. However, obtaining insurance for tiny houses can be difficult which may impede market growth over the forecast period of 2021-2027.

Global Tiny homes market analysis on basis of region which includes Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is a significant region across the world in terms of market share due to increased demand for recreational activities in the region. Whereas Europe is anticipated to exhibit the highest growth rate over the forecast period 2021-2027 due to rising awareness about environmental pollutions from buildings in the region.
