Abstracts

Global Tree Nuts Market is valued at approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2022-2028. The tree nuts involve almonds, cashews, walnuts, pistachios, etc. derived from their special trees. These nuts contain minerals such as magnesium, sodium, calcium, and potassium and offer various health benefits like improving heart health and reducing the risk of a wide range of diseases, and decreasing the chances of bad cholesterol. The surging demand for healthy snacking, growth of the cosmetic industry, coupled with growing health benefits like fulfilling deficiencies of minerals and proteins are some significant factors impelling the growth of the market around the world. For instance, as per a Statista report, in 2021, the cosmetics market globally generates a revenue of around USD 80,737.3 million. Also, it is projected that the amount grows and reach nearly USD 131,041.2 million by 2026. Consequentially, the surging demand for organic and natural cosmetic products is driving the demand for the tree nuts, which, in turn, bolsters the market growth in the near future. However, the rising incidence of nut allergy impedes the growth of the market over the forecast period of 2022-2028. Also, the growing trend of veganism, along with the increasing disposable income are anticipated to act as catalyzing factors for the market demand during the forecast period.

The key regions considered for the global Tree Nuts Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. Europe is the leading region across the world in terms of market share owing to the surging demand for healthy food products and the rising shift from conventional products to organic

products. Whereas, Asia-Pacific is anticipated to exhibit the highest CAGR over the forecast period 2022-2028. Factors such as the increasing popularity of healthy and nutritious snacking and eating habits, and growing per capita income, would create lucrative growth prospects for the Tree Nuts Market across the Asia-Pacific region.

Major market players included in this report are:

Diamond Foods
Montagu Snacks
Golden Peanut and Tree Nuts
