## **Abstracts**

Global Video Intercom Devices Market is valued approximately at USD 22.67 billion in 2020 and is anticipated to grow with a healthy growth rate of more than 13% over the forecast period 2021-2027. Rising trend of investing in technology for security measures is fueling demand in the market. Video intercom devices has a camera, speaker, and a push button at an entrance door, and an internal monitor unit that can communicate with the entrance unit. Rising popularity for smart homes, growing concern for security at public and private places and new product launches are pushing the market growth.
