Abstracts

The global Warehousing and Distribution Logistics Market is valued at approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2029. Warehousing and Distribution Logistics are the storage centers that store goods that require to be distributed or sold later. It includes packaging, storage, transportation, stock control, and inventory management services. It is used to reduce the cost of supplying finished products. The Warehousing and Distribution Logistics market is expanding because of factors such as the rising growth across packaging industries and supportive government policies

According to Statista in 2022, the global demand for packaging is rising. The flexible packaging solutions are estimated to grow from USD 200 billion to USD 240 billion followed by rigid plastic packaging during 2017-2022. Also, the food packaging segment is expected to rise by 11 % between 2017-2022. Whereas rising demand for lightweight packaging material and favorable government initiatives create lucrative opportunities for the market. However, multiple technological constraints hamper the market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Warehousing and Distribution Logistics Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America dominated the market in terms of revenue, owing to the

increasing demand from end-use industries, demand, and adoption of QD technology, etc. Whereas the Asia Pacific is expected to grow with the highest CAGR during the forecast period, owing to factors such as increasing demand for electronic devices, rising consumer spending on electronics, and rising government regulations toward environmental protection.
