Abstracts

Glyoxylic Acid is a non-volatile chemical that showed good reducing power in electroless copper plating and can therefore replace formaldehyde, alleviating the environmental problems associated with the latter, and a highly reactive chemical intermediate having two functional groups, the aldehyde group and the carboxylic acid group. According to BlueQuark Research & Consulting, the global Glyoxylic Acids Market is expected to witness a significant growth rate during the forecasted period. Factors like increasing use of cosmetic products in day-to-day due to rising self-care awareness and growing skin-related problems increase the personal care segment, thus driving the Glyoxylic Acid market growth. Further, the growing demand for glyoxylic Acid from the agrochemicals segments is a primary factor spelling development in the Glyoxylic Acids market. Furthermore, changing lifestyles in several parts of the world wherein individuals spend vast amounts on health-aid products stimulates growth in the pharma sector, thereby boosting the demand for Glyoxylic Acid. However, limited application and market consolidation in some regions across the globe are anticipated to hamper the Glyoxylic Acids market growth in the forecasted period.

Glyoxylic Acids is used to produce different personal care products, including moisturizing skin creams & lotions, acne treatment combinations, skin lightening combinations, sunscreen, & men's care products.

The personal care product is the prime user of Glyoxylic Acids and is projected to drive the Glyoxylic Acids market. Glyoxylic Acids is worn as a neutralizing agent in many personal care products, including shampoos, conditioners, & lotions. The high proportions of personal care products among all age groups for beauty & appearance attract small manufacturers to manufacture Glyoxylic Acids. Personal care applications are expected to be driven by the increasing use of the products in cosmeceutical preparation, such as skin creams and lotions to treat oiliness. The growing use of shampoo in formulations for the treatment of dandruff & hair conditioning is expected to

augment demand over the projected period. Abundant raw materials availability coupled with a large manufacturer base is likely to impact market growth positively. The industry has observed a shift from demand from old consumers to a growing younger consumer base. Due to the boom in skincare products, various smaller operators have ventured into the marketplace to avoid the benefits of the continuously thriving industry. This scenario is expected to boost the market demand.

Some market's key players are Zhonglan Industry Co. Ltd., Arkema, The Chemours Company, China Petrochemical Corporation, CABB Group, and Water Chemical Co.

The Asia-Pacific is the primary market for the Glyoxylic Acids market owing to the rising demand from end-users such as personal care & cosmetics, pharmaceuticals, & agrochemicals. The high proportions of agrochemicals in the agriculture sector for higher crop yields indirectly influence the demand for Glyoxylic Acids. The growing need for fungicides in the global agrochemical industry for pest control plays a vital role in the growth of the Glyoxylic Acids market. Further, Glyoxylic Acids & its derivatives are extensively used across various sectors for various applications such as visual identification of biogenic amines, derivative or oomycete fungicides, & reducing agents for electrodes copper plating. In addition, Glyoxylic Acids plays a significant role in human metabolism, wherein it works as an agent in the glyoxylate cycle. Therefore, fatty acids are converted into carbohydrates, some organs in the human body. The global health landscape is changing rapidly, and people are spending more on their health-related needs, such as changing lifestyles, food habits, sleeping habits, etc. are contributing to this change. All such macro factors are projected to lay a robust platform for the Glyoxylic Acids market growth during the forecasted period.

In January 2019, Skinceuticals launched a new glycolic acid cream, Glycolic 10 Renew Overnight, which improves skin glow by 36% while maintaining tolerability. The cream effectively targets dullness, fine lines, & uneven texture of the skin. It stimulates cell regeneration for enriched tones, texture, & a brighter complexion.

Global Glyoxylic Acids Market report provides deep insight into the Industrial market's current and future state across various regions. The study comprehensively analyses the Glyoxylic Acids market by segmenting based on Derivatives (Vanillin, Allantoin, p-Hydroxyphenylglycine, 2-Hydroxyquinoxaline, Others), Form (Solid, Liquid), Grade (Cosmetic Grade, Technical Grade), End-use Industry (Personal Care & Cosmetics, Agrochemicals, Pharmaceuticals, Aroma, Others). The report examines the market drivers and restraints and the impact of Covid-19 on the market growth in detail. The study covers and includes emerging market trends, development, opportunities, and

challenges in the industry. This report also covers extensively researched competitive landscape sections with prominent companies and profiles, including their market shares and projects.

Contents

1. Executive Summary

2. Research Scope and Methodology

- 2.1 Aim & Objective of the study
- 2.2 Market Definition
- 2.3 Study Information
- 2.4 General Study Assumptions
- 2.5 Research Phases

3. Market Analysis

- 3.1 Introduction
- 3.2 Market Dynamics
 - 3.2.1 Drivers
 - 3.2.2 Restraints
- 3.3 Market Trends & Developments
- 3.4 Market Opportunities
- 3.5 Regulatory Policies
- 3.6 Analysis of Covid-19 Impact

4. Industry Analysis

- 4.1 Supply Chain Analysis
- 4.2 Porter's Five Forces Analysis
 - 4.2.1 Competition in the Industry
 - 4.2.2 Potential of New Entrants into the Industry
 - 4.2.3 Bargaining Power of Suppliers
 - 4.2.4 Bargaining Power of Consumers
 - 4.2.5 Threat of substitute products

5. Market Segmentation & Forecast

- 5.1 By Derivatives
 - 5.1.1 Vanillin
 - 5.1.2 Allantoin
 - 5.1.3 p-Hydroxyphenylglycine
 - 5.1.4 2-Hydroxyquinoxaline
 - 5.1.5 Others
- 5.2 By Form

- 5.2.1 Solid
- 5.2.2 Liquid
- 5.3 By Grade
 - 5.3.1 Cosmetic Grade
 - 5.3.2 Technical Grade
- 5.4 By End-user Industries
 - 5.4.1 Personal Care & Cosmetics
 - 5.4.2 Agrochemicals
 - 5.4.3 Pharmaceuticals
 - 5.4.4 Aroma
 - 5.4.5 Others

Regional Market Analysis

- 6.1 North America
 - 6.1.1 United States
 - 6.1.2 Canada
 - 6.1.3 Mexico
- 6.2 Europe
 - 6.2.1 Germany
 - 6.2.2 United Kingdom
 - 6.2.3 Italy
 - 6.2.4 France
 - 6.2.5 Spain
 - 6.2.6 Rest of Europe
- 6.3 Asia-Pacific
 - 6.3.1 China
 - 6.3.2 India
 - 6.3.3 Japan
 - 6.3.4 South Korea
 - 6.3.5 Rest of Asia-Pacific
- 6.4 South America
 - 6.4.1 Brazil
 - 6.4.2 Argentina
 - 6.4.3 Rest of South America
- 6.5 Middle East & Africa
 - 6.5.1 South Africa
 - 6.5.2 Saudi Arabia
 - 6.5.3 Rest of Middle East & Africa
