Abstracts

Specialty adhesives are described by cross-linking after application, which establishes very strong bonds that exhibit good solvent, water, and temperature resistance, which can replace mechanical fasteners and improve productivity. According to BlueQuark Research & Consulting, the global Specialty Adhesives market is expected to witness a significant growth rate during the forecasted period. Factors like the increasing demand for Specialty Adhesives from the automotive industry due to its ability to replace mechanical fasteners are expected to drive the global Specialty Adhesives market. Further, the increasing demand for Specialty Adhesives in the Construction industry due to their properties like excellent durability, weather resistance are expected to propel the future Specialty Adhesives market. Moreover, the surging demand for Specialty Adhesives in the aerospace industry due to its ability high temperature the extreme climate is expected to drive the global Specialty Adhesives market. However, factors like stringent government regulations are restraining the growth of the global Specialty Adhesives market.

Specialty Adhesives are used in the roof lining, seat molding, car interior components, building structures, aircraft interiors & exteriors, medical equipment, marine vehicles, etc.

The Primary use of Specialty Adhesives is in the Automotive Industry. There has been a significant increase in the usage of Specialty Adhesives in the Automotive industry due to its superior adhesion with materials like aluminum, steel, polymers, fabrics, etc., exceptional durability, lightweight, and the ability to be customized to meet the versatility, thereby driving the global Specialty Adhesives market. Further, usage of Specialty Adhesive in bonding seat units of the car, roof lining, sheet molding, attaching interior & exterior components is projected to drive the global market for Specialty Adhesives in the Automotive Industry. Furthermore, increasing demand for lightweight vehicles has shifted the focus of manufacturers towards fuel efficiency and emission

control with opportunities to develop new and challenging product designs. The demand for vehicles is expected to surge in the forecasted years. Manufacturers have also started investing in research & development to produce more innovative, cost-effective, high-performance products. Moreover, factors like the increasing electric vehicle market, global green revolution, urbanization, growing metropolitan cities are estimated to drive the growth of the Specialty Adhesives Market. These are the factors projected to drive the growth of the Global Specialty Adhesives market.

Some of the market's key players are 3M, The Arkema Group, Henkel AG, Master Bond, Permatex, and Nexus, among others.

The Asia-Pacific region is expected to be a market leader in the future as it is one of the fastest-growing markets for Specialty Adhesives. Factors like increasing population, increase in growing income families, young population, and demand in the domestic and regional markets have elevated the demand for Specialty Adhesives in these regions, thereby driving the market in the Asia-Pacific region. China and India are the primary consumers in Asia-Pacific Region, with China holding a large economic GDP. Further, this unprejudicial growth has resulted in Asia-Pacific emerging as a leader in automotive vehicle manufacturing, shifting the manufacturing hub from the west to the east in the last decade. Moreover, China's new project, called One Belt, One Road initiative, focuses on green development with infrastructure development of the roads, airport, and 30,000 km of high-speed rail, which will cover more than 80 cities with permanent residents, resulting in increased usage of Specialty Adhesives. Japanese aerospace industry has seen a significant increase in the production of commercial flights due to an increase in cargo demands. Factors like these have made Asia-Pacific an essential scope for the global Specialty Adhesives market.

In Oct 2021, H.B. Fuller introduced new adhesives for paper straws.

In Oct 2021, DFCP completes Acquisition of Unichem.

Global Specialty Adhesives Market report provides deep insight into the Industrial market's current and future state across various regions. The study comprehensively analyses the Specialty Adhesives market by segmenting based by Product Type (Cyanoacrylates, Polyvinyl acetate, Polyurethanes, Acrylic), by End-User Type (Automotive, Construction, Aviation, Marine, Medical & Others). The report examines the market drivers and restraints and the impact of Covid-19 on the market growth in detail. The study covers and includes emerging market trends, developments, opportunities, and challenges in the industry. This report also covers extensively

researched competitive landscape sections with prominent companies and profiles, including their market shares and projects.

1. Executive Summary

2. Research Scope and Methodology

- 2.1 Aim & Objective of the study
- 2.2 Market Definition
- 2.3 Study Information
- 2.4 General Study Assumptions
- 2.5 Research Phases

3. Market Analysis

- 3.1 Introduction
- 3.2 Market Dynamics
 - 3.2.1 Drivers
 - 3.2.2 Restraints
- 3.3 Market Trends & Developments
- 3.4 Market Opportunities
- 3.5 Regulatory Policies
- 3.6 Analysis of Covid-19 Impact

4. Industry Analysis

- 4.1 Supply Chain Analysis
- 4.2 Porter's Five Forces Analysis
 - 4.2.1 Competition in the Industry
 - 4.2.2 Potential of New Entrants into the Industry
 - 4.2.3 Bargaining Power of Suppliers
 - 4.2.4 Bargaining Power of Consumers
 - 4.2.5 Threat of substitute products

5. Market Segmentation & Forecast

- 5.1 By Product Type
 - 5.1.1 Cyanoacrylates
 - 5.1.2 Polyvinyl acetate
 - 5.1.3 Polyurethane
 - 5.1.4 Acrylic
- 5.2 By End-User Industries
 - 5.2.1 Automotive

- 5.2.2 Construction
- 5.2.3 Aerospace
- 5.2.4 Marine
- 5.2.5 Medical
- 5.2.6 Others
