## Abstracts

Decking is a flat surface proficient of supporting weight also is usually built outdoors as a part of garden landscaping & connected to a building which adds a new aesthetic dimension to the house, and wooden decks have grown popular & stimulate enthusiasm mainly for outdoor living plus and spaciousness to a place. According to BlueQuark Research & Consulting, the global Wooden Decking Market is expected to witness a significant growth rate during the forecasted period. Factors like the rising adoption of wooden decks in residential constructions due to increasing awareness about wooden deck flooring and railing and increasing preference for luxurious building architecture are key factors driving demand for wooden decking. Further, consumer preferences for green buildings and sustained investments in commercial real estate & rising demand for wooden decking from commercial and residential sectors, expanding private non-residential spending, and public non-residential expenditure are some of the factors predicted to drive the growth of the global wooden decking market. Furthermore, Redwood & Cedar are estimated to grow significantly, redwood is roughly 23% stronger than cedar, but both perform well in residential decking are expected to grow in the market. However, the availability of substitutes such as plastic decks is the primary factor expected to restraint the growth of the global wooden decking material. In addition, hardwoods are expensive than other decking materials may bond the development of the wooden decking market.

Wooden decks are commonly used in luxury homes for outdoor applications such as floor design & rails around gardens. It is being utilized in several houses for building patios, landscaping for gardens, & enlarging the living area as its ease of design versatility, makes it adaptable to varied purposes.

A significant growth driver for the Global Wooden Decking Market is its widespread use in construction activities. Wooden decks are stern, look natural, offer extended durability, & others. These expansions are an ecological solution for furnishing outdoor

spaces & are widely used in both residential & commercial sectors. Wooden decks are enabled for creating gardens and landscaping, balconies, terraces, extended living areas, & others. Wooden decks with railings & facilities for public seating and other infrastructural designs are gaining steady traction. Decks are available in different formats, such as wooden tiles and panels, among others. Components like flashing, ledger attachments, guardrails or guards, frames, stairways & handrails, & others are used in the design & production of numerous types of wooden decks. Flashing is a thin sheet built of vinyl, steel, copper, and different materials, preventing water and moisture from entering the gaps linking house and deck. Ledger attachment is a wooden board worn to attach the deck to concrete walls. Deck framing is the most critical process of deck construction. It involves creating links between beams, joists, and support posts to create a stable deck structure.

Some market's key players are Mohawk Industries, Inc., UPM-Kymmene Oyj, Weyerhaeuser Company, West Fraser Timber Co. Ltd., UFP Industries, Inc., Mets? Group, Setra Group AB.

The North America region is expected to grow considerably in the Wooden Decking market during the forecast period. Over the period, the significant factors driving the market studied are increased remodeling & refurbishment activities & the demand for lavish infrastructure in developed nations. The outgrowing demand for green buildings, aligned with expanding construction activities, particularly in the Asia-Pacific & the North America, is estimated to support the overall wooden decking market trends. Wooden decks are constructed using pressure-treated wood, redwood, cedar, Ipe, & other tropical hardwoods such as mahogany, teak & tiger wood. Cedar is one of the most softwood & effective materials used in decking, it is resistant to rots, termites, & weathering, and redwood is long-lasting, excellent for painting or staining, and does not warp quickly. Some commonly used cedar woods for constructing wooden decks are western red cedar, incense, cedar, Alaskan yellow cedar & others, and there are mainly two types of cedar decking available treated & untreated. Untreated cedar woods contain natural oils that protect the wood from insects such as termites, carpenter ants, & others. Ipe is a hardwood that is naturally resistant to water, fire & insects. Redwood is light and contains natural tannins that make the wood more durable for outdoor applications. Increasing preference for elegant buildings architecture, development in pressure treatment technologies to improve the quality of wooden decking, rising awareness about wooden decking, & increasing spending on renovations with advanced construction materials are the key factors anticipated to continue to drive the market growth of the global wooden decking market.

In August 2021, Saket Group launched a luxury township outline, and it covers an area of six acres and incorporates six towers of 22 to 24 storeys.

In July 2021, Leisure Hotels Group launched a fancy dining experience, The Naini Retreat in Nainital, India. It comprises an alfresco eatery on a suspended wooden deck under a 150-year-old walnut tree.

In April 2021, Ravi Handa Architect and AAMP Studio built and designed a holiday home, Ell house, in Ontario, Canada. The house has L-shaped external wooden decking that opens onto a lake-facing courtyard. The decking is a construct of cedarwood charred by using Yakisugi, which is a traditional Japanese timber-heating technique that makes the timber waterproof and pest-resistant.

Global Wooden Decking Market report provides deep insight into the Industrial market's current and future state across various regions. The study comprehensively analyses the Wooden Decking market by segmenting based on Type (Pressure-treated Wood, Redwood, Tropical Hardwood, Cedar, Others), Type of Construction (Repairs & remodeling, New decks on new construction, New decks on existing construction), Application (Railing, Floor, Wall, Others), End-use Industry (Residential, Non-residential). The report examines the market drivers and restraints and the impact of Covid-19 on the market growth in detail. The study covers and includes emerging market trends, development, opportunities, and challenges in the industry. This report also covers extensively researched competitive landscape sections with prominent companies and profiles, including their market shares and projects.

## Contents

### 1. Executive Summary

### 2. Research Scope and Methodology

- 2.1 Aim & Objective of the study
- 2.2 Market Definition
- 2.3 Study Information
- 2.4 General Study Assumptions
- 2.5 Research Phases

### 3. Market Analysis

- 3.1 Introduction
- 3.2 Market Dynamics
  - 3.2.1 Drivers
  - 3.2.2 Restraints
- 3.3 Market Trends & Developments
- 3.4 Market Opportunities
- 3.5 Regulatory Policies
- 3.6 Analysis of Covid-19 Impact

### 4. Industry Analysis

- 4.1 Supply Chain Analysis
- 4.2 Porter's Five Forces Analysis
  - 4.2.1 Competition in the Industry
  - 4.2.2 Potential of New Entrants into the Industry
  - 4.2.3 Bargaining Power of Suppliers
  - 4.2.4 Bargaining Power of Consumers
  - 4.2.5 Threat of substitute products

### 5. Market Segmentation & Forecast

- 5.1 By Type
  - 5.1.1 Pressure-treated Wood
  - 5.1.2 Redwood
  - 5.1.3 Tropical Hardwood
  - 5.1.4 Cedar
  - 5.1.5 Others
- 5.2 By Type of Construction

- 5.2.1 Repairs & remodeling
- 5.2.2 New decks on new construction
- 5.2.3 New decks on existing construction
- 5.3 By Application
  - 5.3.1 Railing
  - 5.3.2 Floor
  - 5.3.3 Wall
  - 5.3.4 Others
- 5.4 By End-use Industry
  - 5.4.1 Residential
  - 5.4.2 Non-residential

## **Regional Market Analysis**

- 6.1 North America
  - 6.1.1 United States
  - 6.1.2 Canada
  - 6.1.3 Mexico
- 6.2 Europe
  - 6.2.1 Germany
  - 6.2.2 United Kingdom
  - 6.2.3 Italy
  - 6.2.4 France
  - 6.2.5 Spain
  - 6.2.6 Rest of Europe
- 6.3 Asia-Pacific
  - 6.3.1 China
  - 6.3.2 India
  - 6.3.3 Japan
  - 6.3.4 South Korea
  - 6.3.5 Rest of Asia-Pacific
- 6.4 South America
  - 6.4.1 Brazil
  - 6.4.2 Argentina
  - 6.4.3 Rest of South America
- 6.5 Middle East & Africa
  - 6.5.1 South Africa
  - 6.5.2 Saudi Arabia
  - 6.5.3 Rest of Middle East & Africa
