Report Overview

A type of skis for backcountry. Unlike their lift-assisted alpine cousins, backcountry skis have two jobs: getting you uphill efficiently while retaining enough power to make the downhill worth the effort (and fun). Backcountry skiing (US), also called off-piste (Europe), alpine touring, or out-of-area, is skiing in the backcountry on unmarked or unpatrolled areas either inside or outside a ski resort's boundaries. This contrasts with alpine skiing, which is typically done on groomed trails benefiting from a ski patrol. Unlike ski touring, backcountry skiing can include the use of ski lifts including snowcats and helicopters. Recent improvements in equipment have increased the popularity of the sport.
