Class 2 e-Bikes that also have a maximum speed of 20 mph, but are throttle-assisted. The Class 2 e-bike is equipped with a throttle which provides a boost without pedaling and stops assisting at 20 mph, where the motor can work independently. Class 2 throttle-assist E-Bikes are often allowed most places a traditional bicycle can go, though some states and cities are opting for additional restrictions (e.g. New York City & Michigan State). Class 2 may not be suitable for singletrack mountain bike trails ? it has been shown that they pose greater physical damage to trails due to the throttle-actuation.
