Desktop as a service (DaaS) solutions provide a virtualized desktop experience to users, entirely from the cloud. Unlike virtual desktop infrastructure (VDI) software, which utilize on-premises hosting for desktop virtualization, DaaS solutions center around cloud hosting the desktop admin console and virtual desktops. DaaS eliminates the need for businesses to purchase the physical infrastructure associated with desktop virtualization, instead functioning through subscription- and usage-based payment structures.

The global Desktop As A Service Daas Provider market size was estimated at USD 10860.42 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 16.45% during the forecast period.
