### Report Overview

Disposable Airfryer Paper Liner is a specialized, single-use product designed to facilitate the cooking process in air fryers. Made from food-grade materials, it is engineered to withstand high temperatures without releasing harmful chemicals. This product serves as a protective barrier between the food and the air fryer's surface, preventing direct contact and reducing the need for oil. It aids in easy cleanup by capturing food particles and grease, thus maintaining the air fryer's cleanliness. The liner also promotes even cooking by allowing hot air to circulate around the food, resulting in crispy and evenly browned dishes. Its disposable nature ensures convenience, as users can simply discard the used liner after cooking, reducing the time and effort required for cleaning.
