### Report Overview

A freight audit and payment service usually consists of the following services: Collecting invoices from the carrier Freight invoice auditing (preaudit or postaudit\*) Physical payment to the carrier Aggregate billing to the shipper for freight costs incurred Allocation of transportation costs to individual cost centers Detailed reporting for logistics costs and service The outsourcing of the freight audit and payment function in the U.S. is a well-established practice with many reputable vendors. Many shippers and 3PLs have outsourced the auditing and paying of invoicing to a vendor, and this has resulted in major savings and improved accuracy. Outsourcing freight payment in Europe and Asia as a practice is not as well-adopted as in the U.S. but the market continues to grow in each respective region.

This report provides a deep insight into the global Freight Audit and Payment Service market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, value chain analysis, etc.

The analysis helps the reader to shape the competition within the industries and strategies for the competitive environment to enhance the potential profit. Furthermore, it provides a simple framework for evaluating and accessing the position of the business organization. The report structure also focuses on the competitive landscape of the Global Freight Audit and Payment Service Market, this report introduces in detail the market share, market performance, product situation, operation situation, etc. of the main players, which helps the readers in the industry to identify the main competitors

and deeply understand the competition pattern of the market.
