Report Overview

Front doors and exterior doors are essential components of a building's facade, serving as the primary entrance and exit points. These doors are designed to provide security, insulation, and aesthetic appeal to the exterior of a home or commercial property. They are typically made from various materials such as wood, steel, fiberglass, or aluminum, each offering different levels of durability, insulation, and maintenance requirements. Front doors and exterior doors come in a wide range of styles, colors, and finishes to match the architectural design and personal preferences of the homeowner or property owner. They often include features such as glass panels, sidelights, and transoms to enhance the visual appeal and allow natural light to enter the building. Additionally, these doors may be equipped with advanced locking systems and weather-stripping to ensure security and energy efficiency.
