Report Overview

1080p is a category of high-definition television, referring to the resolution of the picture. The 1080 refers to a resolution of 1080 vertical in the picture, and is usually understood to mean a television with a 16:9 aspect ratio, thereby including a resolution of 1920 horizontal. This puts the overall pixel count of a 1080p television at 2,073,600. The p of the term indicates the screen is progressively scanned, rather than being interlaced.

This report provides a deep insight into the global 1080p TV market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, value chain analysis, etc.
